Stop this deportation! Nyatta has to stay!

Nyatta J. (born 13.02.1979, Gambia) from Gambia is living in Austria for 10 years already and is well integrated. He speaks German on B1-level and he was working legally. He was married for five years to an Austrian woman and applied for humanitarian visa after the divorce. The visa was rejected. Instead they arrested and put him into detention center on 25th of August 2013. He does not have a ban on staying and wants to live in Austria. The responsible asylum authority rejected his request. The asylum court did not react on his appeal and did not grant suspensive effect.

The Austrian aliens' police tried to deport him on the 18th of November via Brussels to Gambia, but **Austrian Airlines did refuse it. It was too risky for the pilot, because of the health and mental condition of Nyatta J.!!** He is now in an even worse mental condition and the deportation is against his free will. The Austrian aliens' police does not mind and wants to try to deport him again. This is an utter scandal!! **He likely could sit in a flight of Brussels Airlines, because Austrian Airlines still is refusing to transport him. If Brussels Airlines will transport Nyatta J. the responsible crew is risking the security of the whole flight and passengers!**

As clients of Brussels Airlines we don't want you to make money by deporting refugees against their will. Don't make business with authorities who day by day break Human Rights, as fair asylum procedures, freedom of movement and protection!

Solidarize with Nyatta, rise up and protest! Stand up for human rights and the freedom of movement and against deportations which are based on racist laws!
